MATERIALS & CARE

COUTUREtex

This is a 100% solution-dyed acrylic fabric, that is waterproof, stain repellent and weatherproof and with a 5 years warranty. COUTUREtex is incredibly easy to clean. Therefore you can be confident your furniture will look stylish season after season. Regular cleaning using a soft brush or sponge with a neutral PH detergent is recommended. After cleaning, rinse abundantly with clear water before storage. It is recommended to store your furniture under covers in winter or when not in use for long periods of time.

BATYLINE

Serge Ferrari

Serge Ferrari textile is a combination of sheathed and high-tenacity synthetic yarn. It has a soft touch that is durable and weather proof with a 5 years warranty. For regular cleaning use a soft brush or sponge with Serge Ferrari Cleaner 600 or a neutral PH detergent. After cleaning, rinse abundantly with clear water before storage. It is recommended to store your furniture under covers in winter or when not in use for long periods of time.

OUTDOOR WICKER

The wicker used is highly supple, tear resistant and UV resistant. Our polyethylene based extruded and through-dyed wicker is completely weatherproof as well as being color fast, extremely hard wearing and easy to clean. The wicker is resistant to chlorine, salt water, tanning lotions and oils. Outdoor wicker is completely weather resistant and can be left outside and exposed to the elements all year round.

ALUMINIUM POWDER COATED

Our aluminium furniture is lacquered using a powdercoat finish. The electro-static application method ensures 100% coverage of the alum surface area and provides a consistent and tough finish. The resulting polyester powder-coated surface is flexible and thus knock and scratch resistant, impervious to moisture, highly resistant to corrosion and easy to clean.

TEAK FINISH ALUMINIUM

Our teak finish treatment is a new heat transfer technique directly painted on our aluminium frames. It nicely replicates the look of wood without the maintenance and color change associated to it. It is UV.

CERAMIC-COATED GLASS

This tempered glass has a baked-on ceramic coating to ensure perfect adhesion and longevity. This application leaves the surface with a distinctive, textured pattern virtually eliminating fingerprints. In addition, the UV proof table top is less reflective than polished glass. Wash with a mild cleaner and soft cloth.

MAX ROPE

Our MAX rope is a combination of woven PVC or acrylic covering over a core of rubber. This weather proof material withstands changing weather conditions, is UV-resistant and dries quickly after getting wet, which makes it ideal for outdoor use. It is easy to maintain and can be cleaned with ordinary household cleaners. It is recommended to store your furniture under covers in winter or when not in use for long periods of time.

ROPE

Our rope is a combination of a woven solution-dyed olefin or acrylic. This water and weather proof material withstands changing weather conditions. It's UV-resistant and dries quickly after getting wet, which makes it ideal for outdoor use. It's easy to maintain and can be cleaned with ordinary household cleaners. It is recommended to store your furniture under covers in winter or when not in use for long periods of time.

CORD

Our cord is a combination of woven polyester wrapped in woven PVC. This water and weather proof material withstands changing weather conditions. It's UV-resistant and dries quickly after getting wet, which makes it ideal for outdoor use. It's easy to maintain and can be cleaned with ordinary household cleaners. It is recommended to store your furniture under covers in winter or when not in use for long periods of time.

HIGH PRESSURE LAMINATE HPL

High pressure laminate is perfectly suited for outdoor use. It is resin-impregnated and compressed under very high pressure creating a strong top with a scratch-resistant surface. These table tops basically require no maintenance and can remain outdoors all year round. Compact laminate will naturally fade slightly at the edges over time. In order to maintain the deep black color, the edges can be freshened up by rubbing linseed oil on them. It is recommended to store your furniture under covers in winter or when not in use for long periods of time.

FAUX WOOD

Our faux wood is made of plastic that is UV resistant, waterproof and colourfast. Therefore there is no need to use any conditioner or wood preservative to keep it nice for many years. It is almost maintenance free and easy to clean, you can use a soft rag with a mixture of dish soap and warm water. If needed, a soft brush can be used to loosen any dirt and debris from the surface.
